TO BRING PEACE

Tells Friends That President Knows More of the European Situation Than He Does and Handles Problems Intelligently

SAYS MASSES ARE FOR SETTLEMENT

In Long Talk Colonel Informs President That No Peace Moves Are Being Carried on in Europe at

NEW YORK, June 24 - President Wilson is considered by Col. E. M. House as the man most likely to restore peace in the world. As the president was playing on the gold links at Long Island this afternoon. House, sitting on the porch of the club house, turned to a friend and ; ointed to the president saying that there was the man most likely to bring about peace. In a long talk earlier the colonel informed the president that no peace moves are being carried on in Europe at present. He gained this from officials of the countries at war.

Colonel House told friends that the president knew far more about the European situation than he did, and was handling the problems growing out of the war in a highly intelligent manner, as well as any man could handle them. He said the president displayed a remarkable knowledge of the European situation during their talk. In his golf game the president was victorious over with Germany, Austria and Turkey evident that the emergency clause Gordon Auchinloss, a son-in-law of and asserts that American citizens could be safely restored. That was
